ABOUT

Fauxcuss is a sharp, unapologetic, and rising voice in hip-hop - a powerhouse of lyrical precision and emotional authenticity. Officially stepping into the rap game in 2023 with her viral debut single Run 2 Riches, Fauxcuss (pronounced "Focus") emerged as a self-made force, confidently commanding attention with a flow as relentless as her hustle. Born and raised in Montreal, she balances the grind of motherhood and music with fearless grace, proving that greatness doesn't wait for the perfect moment

MUSICAL JOURNEY

Fauxcuss's love for rap began at just 7 years old, sneaking moments of hip-hop whenever she could. Raised in a religious household where only gospel music was allowed, she found herself drawn to the raw energy of rap artist 50 Cent

In high school, she began penning her own bars—inspired heavily by Nicki Minaj's rapid-fire lyricism and versatility

“

That was the turning point: 'I wanted to rap like her. Fast. Hard. And with meaning

”

ARTISTRY & STYLE

Fauxcuss writes 100% of her music herself.

There are no ghostwriters, no fluff - just raw experience, technical skill, and intentionality

Every bar she delivers is laced with real-life grit, clever wordplay, and an undeniable presence. She believes in being honest in her art, and that confidence pours through every track
